Caution Regarding Forward-Looking Statements

Certain of the statements contained within this document are forward-looking and reflect management's expectations regarding the future growth, results of operations, performance and business of Capstone Infrastructure Corporation (the "Corporation") based on information currently available to the Corporation. Forward-looking statements and financial outlook are provided for the purpose of presenting information about management's current expectations and plans relating to the future and readers are cautioned that such statements may not be appropriate for other purposes. These statements and financial outlook use forward-looking words, such as "anticipate", "continue", "could", "expect", "may", "will", "estimate", "plan", "believe" or other similar words, and include, among other things, statements found in "Strategic Overview" and "Results of Operations". These statements and financial outlook are subject to known and unknown risks and uncertainties that may cause actual results or events to differ materially from those expressed or implied by such statements and financial outlook and, accordingly, should not be read as guarantees of future performance or results. The forward-looking statements and financial outlook within this document are based on information currently available and what the Corporation currently believes are reasonable assumptions, including the material assumptions set out in the management's discussion and analysis of the results of operations and the financial condition of the Corporation ("MD&A") for the year ended December 31, 2012 under the heading "Results of Operations", as updated in subsequently filed MD&A of the Corporation (such documents are available under the Corporation's profile on www.sedar.com).

Other material factors or assumptions that were applied in formulating the forward-looking statements and financial outlook contained herein include or relate to the following: that the business and economic conditions affecting the Corporation's operations will continue substantially in their current state, including, with respect to industry conditions, general levels of economic activity, regulations, weather, taxes and interest rates; that the power infrastructure facilities will experience normal wind, hydrological and solar irradiation conditions, and ambient temperature and humidity levels; an effective TCPL gas transportation toll of approximately \$1.76 per gigajoule in 2013; that there will be no material change in the level of gas mitigation revenue historically earned by the Cardinal facility; that there will be no material changes to the Corporation's facilities, equipment or contractual arrangements, no material changes in the legislative, regulatory and operating framework for the Corporation's businesses, no delays in obtaining required approvals, no material changes in rate orders or rate structures for the power infrastructure facilities, Värmevärden or Bristol Water, no material changes in environmental regulations for the power infrastructure facilities, Värmevärden or Bristol Water and no significant event occurring outside the ordinary course of business; that the amendments to the regulations governing the mechanism for calculating the Global Adjustment (which affects the calculation of the DCR escalator under the PPA for the Cardinal facility and price escalators under the hydro power facilities located in Ontario) will continue in force; that there will be no material change to the accounting treatment for Bristol Water's business under International Financial Reporting Standards, particularly with respect to accounting for maintenance capital expenditures; that there will be no material change to the amount and timing of capital expenditures by Bristol Water; that there will be no material changes to the Swedish Krona to Canadian dollar and UK pound sterling to Canadian dollar exchange rates; and that Bristol Water will operate and perform in a manner consistent with the regulatory assumptions underlying AMP5, including, among others: real and inflationary increases in Bristol Water's revenue, Bristol Water's expenses increasing in line with inflation, and capital investment, leakage, customer service standards and asset serviceability targets being achieved.

Although the Corporation believes that it has a reasonable basis for the expectations reflected in these forward-looking statements and financial outlook, actual results may differ from those suggested by the forward-looking statements for various reasons, including: risks related to the Corporation's securities (dividends on common shares and preferred shares are not guaranteed; volatile market price for the Corporation's securities; shareholder dilution; and convertible debentures credit risk, subordination and absence of covenant protection); risks related to the Corporation and its businesses (availability of debt and equity financing; default under credit agreements and debt instruments; geographic concentration; foreign currency exchange; acquisitions and development; environmental, health and safety; changes in legislation and administrative policy; and reliance on key personnel); risks related to the Power Infrastructure Facilities (power purchase agreements; operational performance; fuel costs and supply; contract performance; land tenure and related rights; environmental; regulatory environment); risks related to Bristol Water (Ofwat price determinations; failure to deliver capital investment programs; economic conditions; operational performance; failure to deliver water leakage target; SIM and the serviceability assessment; pension plan obligations; regulatory environment; competition; seasonality and climate change; and labour relations); and risks related to Värmevärden (operational performance; fuel costs and availability; industrial and residential contracts; environmental; regulatory environment; and labour relations).

The assumptions, risks and uncertainties described above are not exhaustive and other events and risk factors could cause actual results to differ materially from the results and events discussed in the forward-looking statements and financial outlook. The forward-looking statements and financial outlook within this document reflect current expectations of the Corporation as at the date of this document and speak only as at the date of this document. Except as may be required by applicable law, the Corporation does not undertake any obligation to publicly update or revise any forward-looking statements and financial outlook.

This document is not an offer or invitation for the subscription or purchase of or a recommendation of securities. It does not take into account the investment objectives, financial situation and particular needs of any investors. Before making an investment in the Corporation, an investor or prospective investor should consider whether such an investment is appropriate to their particular investment needs, objectives and financial circumstances and consult an investment adviser if necessary.
